Re: Invitation to Submit Comments Regarding Koochiching County's Water Resources.

On January 10, 2017 the Koochiching County Board of Commissioners adopted a resolution to update and revise the Comprehensive Local Water Management Plan (Plan), as authorized under the Comprehensive Local Water Management Act, Minnesota Statutes, §103B. The Plan will focus on priority water management concerns.

The county invites everyone to submit input on water management issues they feel the Plan should address. For each issue submitted, please consider including the following information:

Why is it important that the plan focus on this issue or concern (include or cite relevant data if available)?
What actions do you think are needed to address the concern?
What resources are available to accomplish the actions (names, funding sources, partnerships, etc.)?
What specific areas of the county are the highest priorities in regards to this issue?

In order to get an idea of how everyone views the importance of various water related issues we've included a link to a short survey. Please feel free to fill it out and submit it or print it and mail it in.
http://bit.do/water-survey

Also, please submit any water and related land resources plans and official controls so that these items can be reviewed to ensure consistency with the Comprehensive Local Water Management Plan. These items may be submitted as a website link. **Please submit your comments and/or suggestions by March 10, 2017.**
