| TREES                              | PREFERRED SOIL <sup>1</sup>  | SUN <sup>2</sup> | SPACING | HEIGHT (in feet) | GROWTH RATE <sup>3</sup> | COMMENTS   |
|------------------------------------|--|------------------|---------|------------------|--------------------------|--|
| <b>WILDLIFE SHRUBS &amp; TREES</b> |  |                  |         |                  |                          |  |
| Bur Oak                            | SND to CL  | Fl to Par        | 16 X 16 | 30 - 50          | Slow                     | Large, long lived shade tree. Produces acorns for wildlife forage. Yellow Fall foliage.  |
| Red Maple                          | SND to CL  | Fl to Par        | 16 X 16 | 50 - 70          | Med                      | Bright red fall foliage. Great as a shade tree and to tap for maple syrup.   |
| Yellow Birch                       | SND to LM  | Fl to Par        | 16 X 16 | 60 - 100         | Med                      | Large-long lived birch with copper bark. Good for slopes/banks.  |
| Silver Maple                       | SND to LM  | Fl to Par        | 16 X 16 | 60 -90           | Fast                     | Great shade tree and to tap for maple syrup. Good for low areas.   |
| Swamp White Oak                    | SND to CL  | Fl to Par        | 16 X 16 | 100              | Slow                     | Large, long lived shade tree. Produces acorns for wildlife forage. Tolerant of saturated growing conditions.                       |
| American Hazelnut                  | CL to LM   | Fl to Par        | 6 X 6   | 10               | Med                      | Great hedge shrub. Tasty nut producing and nice yellow Fall color.   |
| American Plum                      | SND-LM to SND-CL   | Fl               | 10 X 10 | 12 - 20          | Fast                     | Native wild plum. Tasty jams!  |
| Canadian Elderberry                | CL to LM   | Fl to Par        | 10 X 10 | 13               | Fast                     | Pretty flowers and great native ornamental. Clusters of sweet edible berries   |
| Midwest Crabapple                  | SND to CL  | Fl               | 10 x 10 | 20 - 25          | Fast                     | Snowy white flowers, great for pollinators and small fruit for wildlife.   |
| Redosier Dogwood                   | SND-CL   | Fl               | 8 x 8   | 6 - 12           | Fast                     | Fruit and twigs used by robins, cedar waxwings, rabbits, and deer. Twigs are red, providing winter color and dense wildlife cover. |
| Serviceberry (Juneberry)           | SND-LM to CL   | Fl to Par        | 10 x 10 | 15 - 26          | Med                      | Beautiful White Early Spring Flowering. Edible Fruit.  |
| Wildlife Packet - 4 Season         | SND to CL  | Fl to Par        | 10 x 10 | 6 - 28           | Med to Fast              | Excellent year round wildlife food source. Consider planting in small groups with conifers.  |
| <b>CONIFERS</b>                    |  |                  |         |                  |                          |  |
| Northern White Cedar               | Sl to Cl   | Fl to Par        | 8 X 8   | 30 - 60          | Med                      | Aromatic evergreen, great winter protection for wildlife.  |
| Norway (Red) Pine                  | SND to SND-CL  | Fl to Par        | 8 X 8   | 75 - 100         | Fast                     | The Minnesota State Tree.  |
| Tamarack                           | S to L   | Fl to Par        | 8 X 8   | 80 - 100         | Fast                     | Smokey Gold Fall Foliage. Great deciduous conifer for many soils and light to moderate saturation.                                 |
| White Pine                         | LM-SND to CL   | Fl to Par        | 8 X 8   | 75 - 100         | Med                      | Classic beauty...just watch for insects or disease.  |
| White Spruce                       | LM to CL   | Fl to Shd        | 8 X 8   | 50 - 75          | Med                      | Long lived forest tree. Good in a variety of sites and conditions.   |
| <b>PLANTSKYDD &amp; EXTRAS</b>     |  |                  |         |                  |                          |  |
| Plantskydd™ Deer Repellent         | Easy to mix and apply. Concentrated powder, just add warm water. Formula is proven to prevent deer and small rodents from browsing on trees, shrubs, and gardens. Lasts 4-6 months depending on the season. 1lb and 2lb quantities available.        |                  |         |                  |                          | Prevents deer and rabbits from browsing on your trees and garden   |
| 5' Vigilis Tree Protector Tubes    | High quality plastic tube protector. Easy to install with adjustable zip ties. 5' to ensure tree is higher than the deer once exposed. Forces vertical growth. Stake not included.   |                  |         |                  |                          | Low maintenance tree and shrub browse protection. Reusable   |
| 1 oz Super Gel Root Dip            | Mix contents of package (1 oz.) with 1 to 1.5 gallons of water and let stand for at least 5 minutes. Dip the roots into the solution, allow the product to drain very briefly and plant your seedling. 1 oz. will treat approximately 750 seedlings. |                  |         |                  |                          | Stores moisture in the root zone and releases it as the roots need it  |
| Wire Stake Vinyl Flags             | 36 Inch wire stake with vinyl flags used to mark planted trees and shrubs.   |                  |         |                  |                          | Helps to find planted trees for mowing around or watering.   |

<sup>1</sup> Snd = Sand Cl = Clay LM = Loam

<sup>2</sup> Fl = Full Sun Par = Partial Sun Shd = Shade

<sup>3</sup> Although growth rate is influenced by numerous variables, the following rates can be used as a guide:

**Slow** = Slow Growth (less than 12"/yr.) **Med** = Moderate Growth (13"-24"/yr.) **Fast** = Fast Growth (25" or more/yr.)
